Composer's note

Dendang Alam Khatulistiwa is a song that talks about the beauty of nature in the equatorial region. As the sun shines upon earth and when the dew drops still wet the world, the birds are chirping to welcome the beauty of morning. The leaves and trees dance together with the wind. From far away, you can hear running water that calms the heart. The gentle breeze of the wind touches the soul, accompanied by the song of the equator.

Dendang Alam Khatulistiwa
